

**bids**&tenders

**New Features**

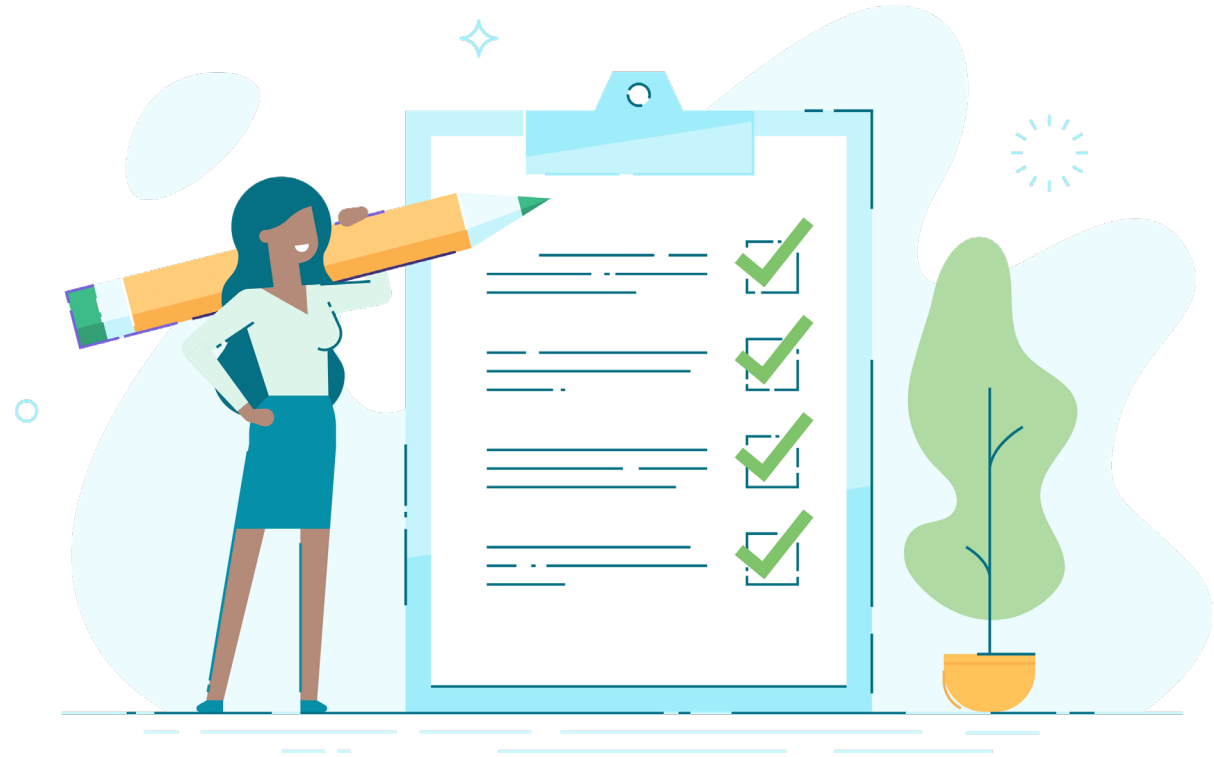

# Contract Builder

# What is a contract transaction?

Example of contract transactions

Contract transaction description	# of Documents	# of Contract transactions
Contract execution	5 documents	1
Change Order 1	1 document	1
Change Order 2	1 document	1
Option year renewal 1	2 documents	1
Option year renewal 2	2 documents	1

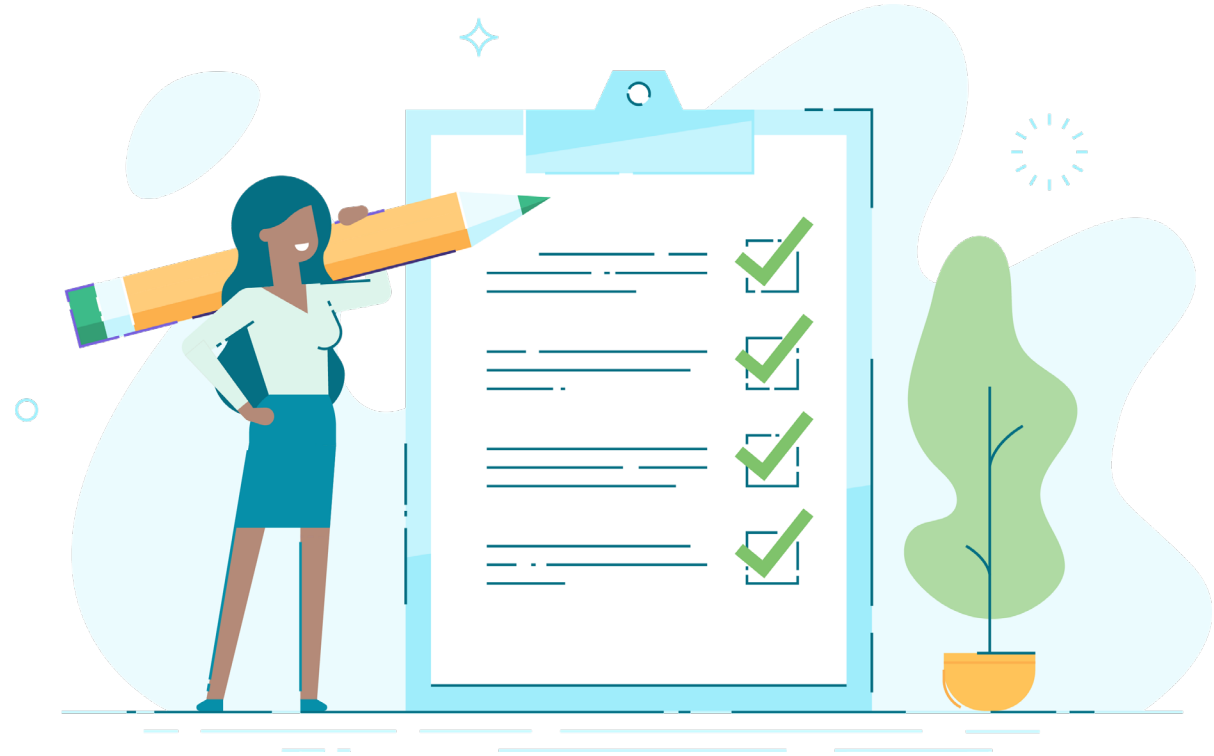

For this example 5 contract transactions would have occurred during the life of this contract.

# What will it do?

The Contract Builder integration with built-in eSignatures will allow you to:

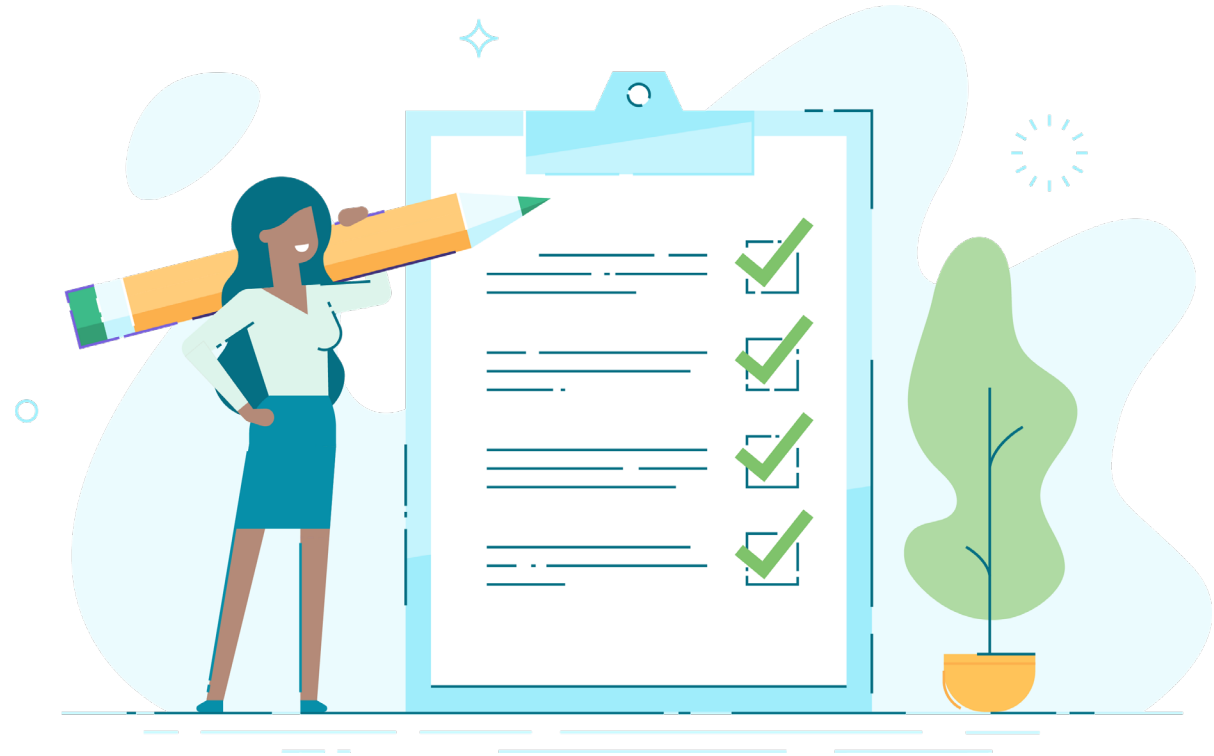

- Upload contracts to projects and assign a signature workflow
- Send contracts to winning suppliers
- Request and add e-signatures to contracts
- Configure and create mandatory or optional text fields, check boxes, radio buttons and more within contracts
- Send signature request notifications and reminders
- Track workflow status, edit and reroute workflows as needed
- Export completed contracts

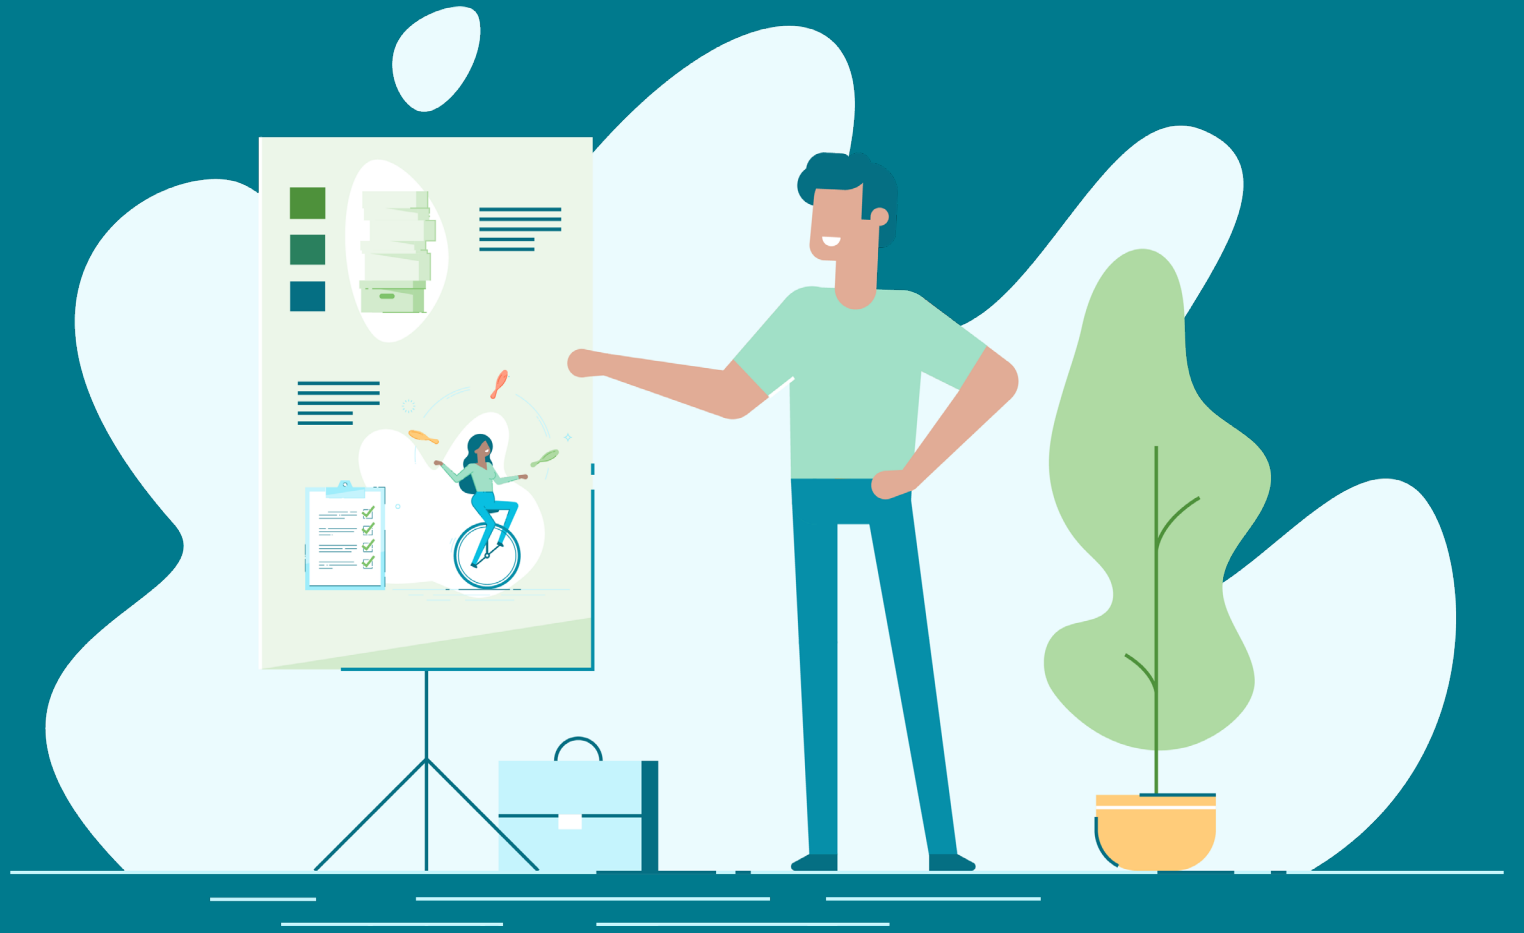

# What will it cost?

At **bids&tenders**, we are always working to extend the functionality of our platform. That's why this December we're excited to launch our new **Contract Builder with eSignatures** integration. As a special deal to our customers, we're offering **20% off** one-time setup fees until **December 6**.

No. contract executions <small>Rate based on number of contracts in last 12 months</small>	20% off one-time setup fee	Annual recurring cost
100	<del>\$3,695</del> now \$2,955	\$1,495.00 / yr
200	<del>\$4,431</del> now \$3,545	\$2,995.00 / yr
300	<del>\$5,319</del> now \$4,255	\$4,995.00 / yr
400	<del>\$6,385</del> now \$5,108	\$5,995.00 / yr
500	<del>\$7,660</del> now \$6,128	\$7,495.00 / yr
